

EP & CATH LAB

CLARAVUE is the best-in-class, hygienic solution for simple, accurate and fully radiolucent patient monitoring. CLARAVUE includes disposable pre-wired and pre-positioned electrodes and patented reusable bioactive trunk cables.

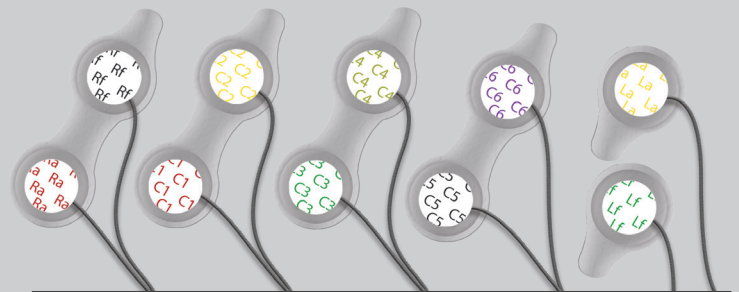

For the past ten years, CLARAVUE has been the proven choice for superior trace quality and infection prevention in prominent European hospitals.

Pre-positioned electrodes to increase throughput in the EP | Cath Lab

FEATURES

- Pre-positioned electrode pairs increase efficiency, saving time and money
- Two simple and quick connections consolidate 10 leadwire ends to two simple connections
- Fully radiolucent leadwires reduce clutter in imaging
- Standardize all monitors to one patented connector cable
- Pre-wired electrodes helps to eliminate motion artifact
- Hygienic pre-wired disposable solution to help eliminate cross contamination

PACKAGING

Electrodes are packaged in a single-use pouch with an easy-to-open tear

Box
